Golden Beauty

(ID)

Our sensational new introduction. A Certificate of Merit winner at Storrs Trial Grounds where it was noted for its good growth, immense size and stout stems.

Golden Beauty is just naturally a large flower—we cut many blooms twelve to fourteen inches in diameter off the same plant in 1938 — always with the finest centers you have ever seen. This remarkable new Dahlia grows six to seven feet tall — plant growth vigorous, healthy, with dark green insect-resistant foliage, stout stems that carry the giant blooms in an erect facing position. Truly a perfect variety from every viewpoint.

The color of its center petals is apricot-yellow, splashed with Jasper pink; then the yellow petals become very faintly tinted with alizarin pink throughout so the general tone is a pinkish yellow. Incidentally, a seedling of Jane Cowl — Bing Crosby with all the good features of its parents. A really beautiful Dahlia that will surely make all the giant informal decoratives step in competition. On the 1938 Honor Roll.

Special Information

PLEASE READ CAREFULLY

AVOID disappointment by ordering early. Quantities are very limited on some varieties and you will be assured of the best selection by making prompt reservation.

Unless otherwise specified, root orders will be shipped between April 15 and May 1. Earlier shipments not recommended or guaranteed against freezing, drying out or rotting. Green plants are usually shipped between May 15 and June 10.

Please make your order amount to \$2.00 or more. It actually costs us as much to handle a \$2.00 order as it does to ship a \$5.00 or \$10.00 order. The same amount of detail work, inspection, packing, carton and handling is required.

Our quotations include all ordinary transportation charges fully prepaid. If you wish "Special Delivery," add 25c to your remittance. We recommend that green plants should travel Special Delivery to insure prompt and careful handling.

While our terms are invariably "Cash with Order," we will, as a matter of accommodation, book your order upon receipt of a deposit of 25% of the amount of the order—balance to be paid before delivery time. Positively no C.O.D. orders accepted.

Special Planting Instructions accompany every root or plant order. These instructions cover all of the necessary details of Dahlia culture, including: preparation of ground, planting, fertilization, disbudding and pruning, digging root crop and winter storage.

Order early and keep a copy of your order. All orders are acknowledged the same day as received by us and stock is immediately selected and reserved for you.

Oakleigh Monarch

Grow this new triple Honor Roll — Certificate of Merit Dahlia. Oakleigh Monarch is all that the name implies—a big, broad-petaled formal type that has created a sensation wherever grown and exhibited.

It is truly a beautiful color—a clear, brilliant cerise-red—quite unlike any other introduction of recent years, and the keeping qualities, for such a large Dahlia, are remarkable. By actual test, blooms of Oakleigh Monarch have kept for seven to ten days in perfect condition.

Oakleigh Monarch scored 86.9 at A. D. S. Trial Grounds, East Lansing, Mich., in 1935, and was one of the most outstanding new varieties on trial. We quote herewith part of official Trial Grounds report: "Flowering habit very good. Stems, straight and strong. Substance, excellent. Keeping qualities, splendid, long lasting. Habit of plant, heavy, vigorous growth, thick, densely branching. Health excellent. Diameter of flowers, 8-11 inches; depth, 4 $\frac{1}{4}$ -7 inches. Height of plant, 4-5 feet. ONE OF THE BEST."
